Examiner's Detailed Action

1. **Claims 1-6 are allowed.**

Reason(s) for allowance

2. The following is the Examiner's statement for the reasons for allowance:

The novelty of applicant's invention is embodied in a set of object-oriented learning objects that created learning classes based on decision attributes. The working objects in learning classes, are classified into positive and negative objects by assigning corresponding decision values. The unqualified generated conjunctive objects are determined based on the classifications. The list of qualified objects is obtained and a set of prediction rules are stored, thereby providing a high speed predictive capability and less data mining.

Any comments considered necessary by applicant must be submitted no later the payment of the issue fee, and in order to avoid processing delays, should preferably accompany the issue fee. Moreover, such submissions should be clearly labeled "Comments Regarding Statement of Reason for Allowance."
